FOR IMMEDIATE RELEASE:

GDS Modellica Celebrates 10 Year Anniversary

DALLAS, TX - (July 23, 2014) - GDS Link, a global provider of customer-centric risk management, process automation and Credit Reference Bureau solutions recently celebrated the 10-year anniversary of the company known today as GDS Modellica. "Modellica plays a key role in the value we deliver to our customers," said Paul Greenwood, president at GDS Link. "Our working collaboration over the years has produced some tremendous evolutionary strides for both our domestic and international services." Angel Salamanca, Managing Director, GDS Europe and the rest of GDS celebrated the event and the successes achieved to date.

Modellica was incorporated in Madrid by Salamanca on July 14th 2004. The company started as an independent venture providing analytic services and embarked on a project to develop a robust credit orientated Rules Engine which is now part of the DataView360 Solution Suite. Modellica formally merged with GDS Link January 2nd, 2011

About GDS Link LLC: GDS Link is a global provider of customer-centric risk management and process automation solutions. The company specializes in advanced software designed to support the access and aggregation of disparate data sources and the rapid implementation of custom credit scorecard models and risk management policies. Its technology acts as the enabler for organizations to effectively manage the risk of their customer throughout its lifecycle. Familiar with the large investments made by institutions in their legacy applications, GDS Link's flagship solution, DataView360® was architected to derive continued value from these systems while delivering enhanced function and flexibility to the risk management community. GDS is also an expert supplier of Credit Reference Bureau system and Credit Bureau value added products.
